

ABBEY TIAMULIN PREMIX

Abbey Animal Health Pty Ltd SAFETY DATA SHEET

Section 1- Identification of Product and Supplier

Supplier Company Details: Abbey Animal Health Pty Ltd

Address: 39 Buckenderra Road, Middlingbank NSW 2630

Telephone Number: 02 8088 0720

Facsimile Number: 02 8088 0721

Emergency Number: Australian Poisons Information Centre: 13 11 26 (24 Hour Service).

PRODUCT NAME

ABBEY TIAMULIN PREMIX

PRODUCT USE

For the treatment of swine dysentery and Swine Enzootic Pneumonia in growing pigs and for the treatment of Chronic Respiratory Disease in non-laying chickens.

Section 2- Hazards Identification

Statement of Hazardous Nature: Not classified as hazardous according to the criteria of Safe Work Australia (SWA).

ADG Classification: None allocated. Not classified as a Dangerous Good according to the Australian Dangerous Goods (ADG) Code.

Poisons Schedule: S4

Irritating to eyes. Can cause allergic reactions.

Risk Phrases:

R36: Irritating to eyes

R42/43: May cause sensitization by inhalation and skin contact

Safety Phrases:

S24/25: Avoid contact with skin and eyes

S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S36: Wear suitable protective clothing.

Section 3- Composition / Information on Ingredients

INGREDIENTS:

Chemical Name	CAS Number	Proportion
Tiamulin hydrogen fumarate	55297-96-6	2.5% w/w
Carrier and other ingredients determined to be non-hazardous		97.5% w/w

Section 4- First Aid Measures

Call Poisons Information Centre Phone Australia 131 126, if you feel that you may have been poisoned or irritated by this product.

SAFETY DIRECTIONS: May irritate the eyes, avoid contact with eyes and skin. Do not inhale DUST when opening the container or mixing. Wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow length PVC gloves and disposable dust mask if dust is present. Wear goggles. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each days use, wash gloves, goggles and contaminated clothing.

Swallowed: Wash mouth with plenty of water. Take patient to medical center or physician. If more than 15 minutes from hospital, induce vomiting. Never give anything by mouth to an unconscious person.

Skin: Remove contaminated clothing and wash skin with plenty of soap and water. Continue flushing with water for several minutes. Consult a physician if irritation continues or if a large skin area is affected.

Eye: Immediately flush with plenty of water for at least 15 minutes. Make sure to flush under the eyelids. Consult a physician for definitive treatment.

Inhaled: Remove to fresh air. Remove contaminated clothing and loosen remaining clothing. Keep warm and at rest. If not breathing, give artificial respiration. If breathing difficult, give oxygen. Seek medical advice if symptoms persist or if unconscious.

Section 5- Fire Fighting Measures

Fire/Explosion Hazard: Non flammable

Flash point: Non flammable

Hazardous Decomposition Products: May include and are not limited to: Oxides of carbon, Oxides of nitrogen and Oxides of sulphur.

Extinguishing Media & Methods: For small fires, Use DRY chemicals, CO₂, water spray or foam.

Precautions for fire fighters: Recommend pressure-demand, self-contained breathing apparatus (SCBA). Wear full protective equipment and isolate area.

Section 6 - Accidental Release Measures

Spills and Disposal: Sweep up spills and dispose of at licensed landfill site. Wear protective equipment to prevent skin and eye contact. Do not burn container.

Methods for cleaning up: Before attempting clean up, refer to hazard data (section 2) given above. Use broom or dry vacuum to collect material for proper disposal without raising dust. Rinse area with water. Prevent large spills from entering sewers or waterways. Contact emergency services and supplier for advice.

Section 7 - Handling and Storage

Handling: Before use read carefully the product label instructions. Do not inhale DUST when opening the container or mixing. Wear cotton overalls buttoned to the neck and wrist and a washable hat, elbow length PVC gloves and disposable dust mask if dust is present. Wear goggles. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each days use, wash gloves, goggles and contaminated clothing.

DO NOT USE in birds which are producing or may in the future produce eggs or egg products for human consumption.

Storage: Store in a cool dry place below 30°C (Room Temperature). Protect from moisture and heat. Keep container tightly closed. Keep in a cool, well-ventilated place.

Section 8 - Exposure Controls / Personal Protection

Workplace Exposure Standards: No exposure limits have been established for this product.

Engineering Controls: Natural ventilation should be adequate under normal operating conditions. Keep containers closed when not in use.

Personal Protective Equipment (PPE): Use good industrial hygiene. Avoid skin and eye contact. Prevent dispersion of dust. If inhalation risk occurs, wear organic vapour respirator. Wear protective clothing when opening container and handling such as cotton overalls buttoned to neck, elbow-length PVC gloves, washable hat, goggles, disposable dust mask. Always wash hands and face after use, especially before eating, drinking or smoking.

Personal Hygiene: Do not eat, drink or smoke when handling this product.

Section 9 - Physical and Chemical Properties

Physical State:	Yellow to light brown powder
Boiling Point:	Not applicable
Vapour Pressure:	Not applicable
Specific Gravity:	Not applicable
Solubility in Water:	soluble

Section 10 - Stability and Reactivity

Stability of the Substance: Product is stable under normal conditions of storage.

Conditions to avoid: This product is contraindicated for use in livestock receiving products containing Narasin, Monensin, or Salinomycin in the feed. During treatment withhold all other sources of feed. Tiamulin should not be given for 5-7 days of Narasin, Monensin or Salinomycin use.

Hazardous reactions: Hazardous polymerisation does not occur.

Section 11 - Toxicological Information

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms that may arise if the product is mishandled and over exposure occurs are:

Acute Effects:

Swallowed: May cause stomach distress, nausea or vomiting.

Skin: Contact with skin will result in mild irritation. Repeated or prolonged skin contact may lead to irritant contact dermatitis.

Eye: Is an eye irritant.

Inhaled: Dusts of this product may cause irritation of the nose, throat, and respiratory tract.

Section 12 - Ecological Information

Potential Environmental Considerations: No environmental data exists. However, avoid contamination of waterways.

Section 13 - Disposal Considerations

Disposal Information: Dispose of any clean-up materials according to all local regulations.

Container Disposal: Shake empty bag into medicated feed. Shred and bury bags in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit. DO NOT burn empty containers or product.

Section 14 - Transport Information

No specific transport considerations apply since ABBEY TIAMULIN PREMIX is NOT classified as a dangerous good according to Australian Dangerous Goods (ADG) Code.

Section 15 - Regulatory Information

Poisons Schedule: S4

APVMA Approval Number: 62394

Approved pack size: 5kg, 10kg, & 20kg

For more information please refer to the APVMA approved product label

Section 16 – Other Information
